Roadmap

Our roadmap outlines our vision for the future of LISTR and the key milestones we aim to achieve:

Phase 01

- Build and launch the telegram bot, test for stability.
- Create website
- Integrate the launch schedule function for various network chains.
- Onboarding of various projects to build database

Phase 02

- UI/UX improvements
- Addition of bot features
- Expand our user base
- Enhance visibility through targeted marketing
- strategic partnerships
- CG/CMC listing

Phase 03

- - collect user feedback
- - Analytics integration
- - Build insights from database
- - Adding new features and functionalities
- - Security audits

Phase 04

- - Community engagement initiatives
- - Billboard Marketing
- - CEX Listing
- - Multi-Million Market Capitalization
- - Developing more Use cases

LISTR Features

Comprehensive Schedule

Access detailed information about upcoming crypto project launches, including launch date, time, chain, and social media links.

Integrated Telegram Bot

Seamlessly interact with our platform using our Telegram bot, allowing you to view launch schedules and make purchases directly within telegram. With our notification system, you won't be missing any information.

User-Friendly Interface

Our intuitive platform makes it easy to navigate through upcoming launches and select the ones that interest you

Customized Advertising Solutions

Project owners can enhance their visibility by purchasing launch spots and broadcast advertisements, reaching potential investors and users.

Benefits

Stay Informed:

Users will be able to keep track of upcoming crypto projects and be among the first to discover new opportunities as they have access to launch information on projects from all top network chains.

Maximize Visibility

Project owners would be increasing their visibility by securing launch spots and broadcast advertisements, reaching a large and engaged audience of crypto community with potential investors.

Simplified Process

Our platform streamlines the process of participating in crypto launches, making it accessible to both project owners and enthusiasts.

Community Engagement

Join in on discussions about projects on our ever-vibrant community of crypto enthusiasts and project owners, fostering connections and staying up-to-date with information can boost trading success.

The End.
